### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Mary-Ellen M. Devlin on 06-29-04 and 07-01-04.

The application has been amended as follows:

- Claim 2: Delete compounds # (1), (6), (7), (11), (12), (13), (17), (18), and (19), then renumber the remaining compounds accordingly.
- Claim 3: Delete compounds # (1), (6), (7), (11), (12), (13), (17), (18), and (19), then renumber the remaining compounds accordingly.
- Claim 7: Delete compound (o).
- Claim 17: Line 1, after the word 'preventing', insert the phrase --further growth of tumors, --.
- Claim 18: Line 1, after the word 'preventing', insert the phrase --further growth of tumors, --.
- Claim 19: Line 1, after the word 'preventing', insert the phrase --further growth of tumors, --.

***Allowable Subject Matter***

Applicant's amendment of 04-12-04 has been fully considered. The deletion of "tautomer" in claims 1-7 has rendered moot the previous rejection of 112/2<sup>nd</sup> paragraph. Likewise, the deletion of "and diseases of the gastrointestinal tract, bile duct, and gall bladder" in claims 17-19 has obviated the previous rejection of 112/1<sup>st</sup> paragraph. The above Examiner's Amendment also further clarifies claims 17-19. Claims 2, 3, and 7 have been amended to exclude compounds having "diethylamino" which has been deleted from the definition of R<sub>b</sub>.

Also, the deletion of "diethylamino" from the definition of R<sub>b</sub>, and the 1.132 declaration have overcome the previous rejection of double patenting. Therefore, all previous rejections are withdrawn herein for the allowance of claims 1-19.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

The closest prior art, WO 99/09016, provides a broad generic teaching seemingly encompasses the instant formula (I). However, on pages 8 & 9, WO'016 provides provisos that exclude compounds of the instant formula (I). Furthermore, in the definition of R<sub>3</sub>, the term "carboalkoxy" means CO<sub>2</sub>R", and not 'cyclopropylmethoxy', 'cylcobutyloxy', or 'cyclopentyloxy' as defined for the instant R<sub>c</sub>.

An update search yields three references teaching substituted *amino-quinazoline* with side chains having

Art Unit: 1624

specific moieties represented by variables  $R_a$ ,  $R_b$ , and  $R_c$ .

However, said reference do not teach compounds with specific

groups of moieties as represented by the instant variables  $R_a$ ,

$R_b$ , and  $R_c$ . Thus, they do not anticipate or render obvious the

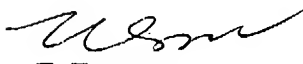

instant compounds.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
